Drilling Fluids

Product Bulletin

DEFOAMER

DEFOAMER is a glycol-based defoaming agent formulated to control foaming in drilling fluids containing fresh or sea water, effectively breaking foam as well as preventing further foaming and air entrainment.

APPLICATIONS

Add to drilling fluids as required to break or prevent foaming

PHYSICAL PROPERTIES

Specific Gravity	1.00-1.05 @ 25/25C PMCC
Flash Point	>325°F, >163°C
Solubility	Water Dispersible
Appearance	Off White to Gray Liquid
Physical form	Viscous liquid, Mild odor

ADVANTAGES

Easy to Mix
Immediate results
Effective in low concentrations
More persistent defoamer than alternative products

HANDLING

Non Hazardous
Refer to MSDS for handling information

PACKAGING

Available in 55 gallon drums and 5 gallon plastic pails with pour spouts
